## Materials

- Size 11 seed beads in your desired colors
- Size 12 seed beads in a contrasting color for the fringe
- Earring hooks
- Nymo beading thread
- Beading needle
- Scissors

## Instructions

1. Start by creating a foundation row of 5 size 11 seed beads. To do this, thread a needle onto your thread and pass it through the first bead. Pass the needle back through the second bead and then through the first bead again. Continue in this way until you have 5 beads on your thread.
2. For the second row, you will add 2 beads to each bead on the foundation row. To do this, pass your needle through the first bead on the foundation row, then pick up 2 beads and pass your needle

through the second bead on the foundation row. Continue in this way until you have completed the second row.

3. For the third row, you will add 3 beads to each bead on the previous row. To do this, pass your needle through the first bead on the second row, then pick up 3 beads and pass your needle through the second bead on the second row. Continue in this way until you have completed the third row.
4. Continue in this way, adding 1 more bead to each bead on the previous row until you have reached your desired length for the earrings. For the fringe, add 5 size 12 seed beads to the last row of each earring.
5. Once you have completed the beading, attach the earring hooks to the top of each earring. To do this, simply open the loop on the earring hook and slide it onto the first bead on the top row of the earring. Close the loop to secure the earring hook.
